When placing a student in our district when they move in with an IEP, it is important to have a parent participate in that meeting if at all possible, either in person or by phone. Please reach out to mom and see if there is a different day/time she could participate in person or by phone.

Thanks,

Good Afternoon,

I hope all is well with you. In the morning, we have a schedule meeting with Adam Wright's mother at 8:30 am.

She made M [Redacted] aware that started a new job and will not be able to attend.

He needs placement and I was wondering can we have the meeting without mom? How do we handle this situation?

Please advise...
